

# Paper overview: Using Machine Learning for the estimation of Added Wave Resistance

Pablo Canada Pereira

February 4, 2021

## Abstract

### 1 Introduction

### 2 Theoretical background

#### 2.1 Added wave resistance

##### *2.1.1 Numerical methods*

##### *2.1.2 Semi-empirical methods*

#### 2.2 Machine Learning with NN-regressor

### 3 Methodology

### 4 Results

#### 4.1 Comparison of NN-regressor with DTU tool

#### 4.2 Comparison of NN-regressor on extended database

#### 4.3 Comparison with experimental results

### 5 Implementation of NN-regressor on DESMO

### 6 Summary and conclusions
